

CPixels Litepaper

Introduction

CPixels is not just another crypto project—it is a self-sustaining, revenue-generating ecosystem that solves real problems in the crypto industry.

Key Features:

- **No Token Flooding** – Controlled Supply
- **Real Revenue Model** – Earn from Ad Rentals
- **Lifetime Passive Income** – Community-Owned Pixels
- **No Pre-Sale, No ICO** – Sustainable Tokenomics

By combining digital advertising, verified investor networks, and a controlled token supply, CPixels is setting a new standard for crypto sustainability and passive income opportunities.

About CPixels

CPixels is an innovative crypto collaboration hub and advertising platform that integrates verified investor networking, revenue-sharing models, and affordable advertising solutions. Unlike many crypto projects focused solely on speculative gains, CPixels provides a real revenue model, helping investors and projects connect meaningfully while ensuring long-term sustainability.

At the heart of CPixels lies a unique **Crypto Digital Advertisement Screen**, composed of one million pixels that users can own and rent to crypto projects for advertising. This model ensures affordable and effective promotions while providing community-driven revenue-sharing opportunities, where members earn monthly income from pixel rentals.

Mission

Our goal is to create a sustainable, community-powered crypto ecosystem that provides long-term income opportunities through real utility and revenue models. We aim to:

- Bridge the gap between crypto projects and verified investors.
- Offer affordable, transparent, and effective advertising solutions.
- Establish a lifetime revenue-sharing model based on digital pixel ownership.

Industry Problems & CPixels Solutions

Problems in Crypto Industry	CPixels Solutions
Difficulty in finding reliable investors	Verified Crypto Micro Investors Club for secure connections
High advertising costs & ineffective marketing	Affordable Crypto Digital Advertisement Screen
Short-lived projects with no real business model	Structured revenue-sharing economy based on pixel ownership
Unsustainable token distribution causing price crashes	Controlled monthly distribution without any IPO or pre-sale
Lack of community engagement & long-term rewards	Lifetime income model for pixel holders

CPixels Solutions

We're not building something overly technical, complicated, or years away from completion. Our idea is simple, ready to execute, and doesn't require users to just hold and wait.

1. Crypto Micro Investors Club

Building a **Community of Verified Crypto Investors**:

- A secure and trusted space for verified investors and traders to list themselves, connect with like-minded individuals, and exchange investment ideas.
- Three exclusive private Telegram groups categorized by investment level:
 - **Bronze Investors Club** (\$10 – \$99 Investors)
 - **Silver Investors Club** (\$100 - \$999 Investors)
 - **Gold Investors Club** (\$999+ Investors)

2. Crypto Digital Advertisement Screen

Offering **Affordable Advertisement Services** to Crypto Projects:

CPixels has created an affordable and effective solution—our **Crypto Digital Advertisement Screen**, consisting of one million pixels rented at just **\$1 per pixel per month**.

- **Affordable marketing** for crypto projects
- **Direct exposure** to genuine investors
- **Real results** instead of bot engagement

Revenue Model with Profit Sharing

Unlike speculative projects, CPixels generates **monthly income** through pixel rentals and shares ad revenue with the community, creating lifetime earning opportunities for members.

Phases of the Project

Phase One (January 15, 2025 - July 30, 2025)

Focus Areas:

- Community Building
- Pixels Distribution
- Token Launch
- Token Listing on Major DEXs
- SLE Jackpots & Other Reward Distributions

Benefits:

- Monthly Airdrop Pixels Reward (3x locked pixels in 6 months)
- Option to Convert Pixels to Tokens
- Exclusive Rewards & Benefits

Phase Two (Starting August 1, 2025)

Focus Areas:

- Marketing & Outreach
- Advertising Services for Projects
- Monthly Income for Pixel Holders

Benefits:

- Convert Pixels to Tokens
- Lifetime Monthly Income from Ad Revenue

Monthly Reward Formula: *Total Pixels of All Members ÷ Total Monthly Ad Revenue = Per Pixel Reward*

Your Reward: **Your Held Pixels × Per Pixel Reward**

How to Own Pixels?

1. **Buy Pixels**
2. **Collect Free Pixels via Airdrop Program**

Types of Pixels

- **Open Pixels:** Can be converted to tokens at any time.
- **Locked Pixels:** Locked for 6 months, receive 3x rewards.
- **Hold Pixels:** Cannot be converted or rewarded immediately but unlock after 90 days.

Important: Every month, **33% of rewards are Open, and 67% are Hold.**

No ITO or Pre-sale of Token

The only way to acquire tokens is through **pixel ownership.**

Pixel Distribution Plan

- **30% (300,000 pixels)** can be purchased.
- **70% (700,000 pixels)** will be distributed as rewards in 6-months airdrop series.

6-Month Airdrop Series:

- **100,000 pixels** distributed monthly.
 - **75% (75,000 pixels)** for locked pixel rewards.
 - **25% (25,000 pixels)** for affiliate program.
-

CPixels Ecosystem

CPixels operates on a **dual-asset model:**

- **Pixels** – Ownership units providing revenue-sharing benefits.
- **CPIXEL Token** – BEP-20 crypto asset linked to pixel ownership.

What Makes CPIXEL Token Different?

- **Fixed Limited Supply (2 Million Total Supply)** – Unlike other tokens that rely on inflationary supply models, CPIXEL ensures scarcity and long-term value preservation.
- **No ITO, No Pre-Sale** – Eliminates early dumping risks and ensures a fair token distribution model through real utility and engagement.
- **Controlled Distribution** – CPIXEL tokens are only distributed through **pixel ownership and engagement**, preventing market saturation.
- **Real Utility** – The token is not just another speculative asset; it serves multiple roles, including:
 - **Pixel ownership and revenue-sharing**
 - **Payment for advertising services**
 - **Access to exclusive investor clubs**

Secure Your Profits

- Each **pixel is always valued at 1 USDT**, ensuring a stable investment.
- **Hold pixels** for passive income or convert them to CPIXEL tokens.

Conclusion

CPixels is a revolutionary crypto platform designed to provide **lifetime income opportunities** through a **real revenue model**. With **controlled supply, sustainable tokenomics, and an innovative advertising ecosystem**, CPixels is setting new standards in the crypto industry.
